Terminal Surface Treatment:

Copper and tin

End Application:

Remote alarm panel onboard 225 ft wlb coast guard vessels

Inclosure Type:

Encapsulated

Reference Temperature In Deg Celsius:

80.0

Special Features:

300 v; 25 ft cable; 2 wire platinum ptc (positive temperature coefficient) capsule sensor; w/0.375 in. Dia; 1.75 ins long

Precious Material And Location:

Internal surfaces platinum

Precious Material:

Platinum

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A086a0
