Section Quantity:

2

Body Style:

Rectangular bushing mounted

Reliability Indicator:

Not established

Shaft Diameter:

6.4 millimeters

Shaft Length:

23.0 millimeters

Mounting Bushing Length:

6.4 millimeters

Body Length:

13.7 millimeters

Body Width:

15.9 millimeters

Body Height:

15.9 millimeters

Shaft Style:

Round, slotted

Actuator Type:

Single shaft

Screw Thread Diameter:

0.250 inches

Screw Thread Series Designator:

Unef

Screw Thready Qty Per Inch (tpi):

32.0

Mounting Method:

Standard bushing

Electrical Resistance Per Section:

1.0 kilohms all sections

Resistance Tolerance Per Section In Percent:

-20.0/+20.0 all sections

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A002a0
