**End Application:**

Used on awo awacs-e3a

**Special Features:**

This is a high voltage resistor with a +/- 1% tolerance. Resistance shall be tested using 100vdc as specified in drawing 584r549 rev m section 4.8.3 (mil-prf-55182, table xvii). A Keithley 2400 multimeter or better multimeter shall be used. It was found that the hp3456a multimeter is not adequate to test these resistors.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A001a0

**Mil-std (military Standard):**

Mil-prf-55182 spec.
