End Application:

Used on awo awacs-e3a

Special Features:

This is a high voltage resistor with a +/- 1% tolerance. Resistance shall be tested using 100vdc as specified in drawing 584r549 rev m section 4.8.3 (mil-prf-55182, table xvii). A Keithley 2400 multimeter or better multimeter shall be used. It was found that the hp3456a multimeter is not adequate to test these resistors.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A001a0

Mil-std (military Standard):

Mil-prf-55182 spec.
