NSN 5905-01-472-4386

Nonprecision Wire Wound Variable Resistor - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5905-01-472-4386

Reliability Indicator:
Established
Mounting Method:
Printed circuit
Special Features:
Failure rate 0.1 per 1000 hrs; wire wound (lead screw actuated)
Specification Data:
81349-mil-r-39015c government specification
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A002a0
