Nonprecision Wire Wound Variable Resistor - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5905-01-481-3661

Section Quantity:
1
Switch Type:
Toggle
End Application:
Switchboard p/n 785600
Features Provided:
Switch
Electrical Resistance Per Section:
2000.0 ohms single section
Special Features:
Item consists of motor, 10rpm, 115vac, model pa (1); spacer tube 2 inch, 8-32 threaded (4); toggle switch 2p, (on)-on turn, 2w (1);
potentiometer, 2k ohm, 10 turn, 2w (1); machine screw, 8-32 x 1 1/4 inch, stainless steel (4); flex couplings, 1/4 inch (1); potentiometer
plate (1); motor/switch plate (1); machine screw, 8-32 x 3/4 inch, stainless steel (2); machine screw, 8-32 x 1/2 inch (from motor
assembly) (2); barrier terminal block, 4 contact (1); capacitor (from motor assembly) (1)
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A002a0
