Section Quantity:

1

Switch Type:

Toggle

End Application:

Switchboard p/n 785600

Features Provided:

Switch

Electrical Resistance Per Section:

2000.0 ohms single section

Special Features:

Item consists of motor, 10rpm, 115vac, model pa (1); spacer tube 2 inch, 8-32 threaded (4); toggle switch 2p, (on)-on turn, 2w (1); potentiometer, 2k ohm, 10 turn, 2w (1); machine screw, 8-32 x 1 1/4 inch, stainless steel (4); flex couplings, 1/4 inch (1); potentiometer plate (1); motor/switch plate (1); machine screw, 8-32 x 3/4 inch, stainless steel (2); machine screw, 8-32 x 1/2 inch (from motor assembly) (2); barrier terminal block, 4 contact (1); capacitor (from motor assembly) (1)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
