Section Quantity:

1

Body Style:

Cylindrical bushing mounted

Reliability Indicator:

Not established

First Flat Length:

8.7 millimeters

Body Diameter:

58.7 millimeters

Shaft Diameter:

6.4 millimeters

Shaft Length:

22.2 millimeters

Mounting Bushing Length:

9.5 millimeters

Body Length:

34.9 millimeters

Shaft Style:

Round, slotted

Actuator Type:

Single shaft

Screw Thread Diameter:

0.375 inches

Screw Thread Series Designator:

Un

Screw Thready Qty Per Inch (tpi):

32.0

Mounting Method:

Locking bushing

Electrical Resistance Per Section:

16.0 ohms single section

Power Dissipation Rating Per Section In Watts:

50.0 free air single section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A002a0
