Power Dissipation Rating In Watts:

1.750

Special Features:

Isolates pulses from a switch, proximity detector, current pulse transmitter or voltage pulse transmitter located in a hazardous area; 1 channel; 20 to 35v dc supply voltage; max. Current consumption 65ma at 24v dc, 70ma at 20v dc, 55ma at 35v dc; clip-on din-rail mounting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-d
