Body Style:

Rectangular

Reliability Indicator:

Not established

End Application:

B52 aircraft

Mounting Facility Quantity:

2

Terminal Location:

Left adjacent side two rows

Mounting Method:

Unthreaded hole

Special Features:

Resistor, variable, trimmer

Terminal Type And Quantity:

4 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A002a0
