Reliability Indicator:

Not established

Body Outside Diameter:

16.3 millimeters

Body Width:

3.1 millimeters

Maximum Operating Temp:

85.0 degrees celsius

End Application:

An/frt-31, transmitting set, radio

Inclosure Type:

Encased

Zero Power Resistance:

0.155 ohms

Zero Power Resistance Tolerance In Percent At Reference Temp:

-5.0/+5.0

Product Name:

Polyfuse resettable fuses

Style Designator:

Spherical

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A086a0
