**Reliability Indicator:**

Not established

**Body Length:**

3.30 millimeters

**Body Height:**

0.61 millimeters

**Inclosure Type:**

Encased

**Product Name:**

Resettable ptcs

**Special Features:**

Tin plated copper terminal material; 85 degrees celsius, 1000 hours passive aging; mins 40 degrees to plus 85 degrees celsius operating temperature;

**Style Designator:**

Chip

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A086a0
