Reliability Indicator:

Not established

Body Length:

3.30 millimeters

Body Height:

0.61 millimeters

Inclosure Type:

Encased

Product Name:

Resettable ptcs

Special Features:

Tin plated copper terminal material; 85 degrees celsius, 1000 hours passive aging; mins 40 degrees to plus 85 degrees celsius operating temperature;

Style Designator:

Chip

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A086a0
