End Application:

Nsn: 4920-01-499-7073. Ainac/ric au llerf 6182

Assembly Construction Method:

Mounted between brackets

Component Relationship:

Attached to a load bank

Special Features:

This is a resistor assembly with two .32 ohm resistors and five .025 ohm resistors. These are assembled on a aluminum bracket 4in wide x 4.75in high and 12in long. Capable of do 30v at 190a for two minutes when cooled by 110 cfm fans

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
