Terminal Quantity:

2

Terminal Type:

Screw

Overall Length:

100.0 millimeters

Overall Height:

95.0 millimeters

Overall Width:

Between 21.8 millimeters and 24.2 millimeters

End Application:

Hemp endurable power system

Mounting Configuration:

2 unthreaded holes, 7.0 mm in dia., one on each end at bottom edge

Element Material:

Metal oxide

Resistance Temperature Rating:

85.0 degrees celsius

Special Features:

Terminals are m6 international thread pan head screws

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-d
