**Terminal Quantity:**

2

**Terminal Type:**

Screw

**Overall Length:**

100.0 millimeters

**Overall Height:**

95.0 millimeters

**Overall Width:**

Between 21.8 millimeters and 24.2 millimeters

**End Application:**

Hemp endurable power system

**Mounting Configuration:**

2 unthreaded holes, 7.0 mm in dia., one on each end at bottom edge

**Element Material:**

Metal oxide

**Resistance Temperature Rating:**

85.0 degrees celsius

**Special Features:**

Terminals are m6 international thread pan head screws

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T172-d
