End Application:

Used on nsn 1430-01-448-9834 information and coordination central.

Special Features:

Thick film chip resistor arrays, leadless surface mount pkg, convex termination (type x), bussed circuit type, 10 pads, 8 resistors, resistance range 33-100l ohms, 25v maximum operation v, operating temp range minus 55 degrees c to plus 125 degrees c.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
