Terminal Type:

Wire lead

End Application:

C-130 acft

Product Name:

Resistor, fixed, wire wound assembly, coverd, 5 and 7 watt

Special Features:

Length code a--12 resistance code 1501; resistance ohms 1500; res tol 1%; maintain maximum heat dissipation at 3.5 watt for 7watt resistor assembly; basic resistor designation 7 watt (-7) rwr84s5110fr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A001a0
