**Body Style:**

Panel style

**End Application:**

Transpor aircraft c-295

**Product Name:**

Cermet panel potentiometers

**Special Features:**

Basic type mod pot series 70; dua (cermet)lug terminal configuration; 1 location lug option; g plain bushing type, 0.250 inch length; 0.875 inch shaft length, shaft type f-standard flat 0.250inch diameter, 0.375 inch bushing diameter; 10000 ohms total resistance value; modified linear(s) plus/minus 10 percent taper type and total resistance tolerance; temperature range plus 150 degree celcius, minus 55 degree celcius

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A002a0
