Body Style:

Panel style

End Application:

Transpor aircraft c-295

Product Name:

Cermet panel potentiometers

Special Features:

Basic type mod pot series 70; dua (cermet)lug terminal configuration; 1 location lug option; g plain bushing type, 0.250 inch length; 0.875 inch shaft length, shaft type f-standard flat 0.250inch diameter, 0.375 inch bushing diameter; 5000 ohms total resistance value; modified linear(s) plus/minus 10 percenttaper type and total resistance tolerance; temperature range plus 150 degree celcius, minus 55 degree celcius

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A002a0
