Reliability Indicator:

Not established

Unthreaded Mounting Hole Diameter:

0.370 inches

Temperature Points For Resistance Readings At Zero Power:

25.0 degrees celsius all resistance-temperature points

End Application:

Welding machine arc; maxstar 200 model dx

Inclosure Type:

Hermetically sealed

Zero Power Resistance:

30.000 kilohms

Product Name:

(inavy)thermistor

Style Designator:

Bead type evacuated or gas filled envelope

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A086a0
