Product Name:

Rv6 series industrial potentiometer

Special Features:

Element type: conductive plastic; terminal type: solder hook; power rating: 0.5w; resistance value: 10kohm; operating temp: -40 degrees c to 120 degrees c (-40 degrees f to 248 degrees f); working voltage (max): 350v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A002a0
