Shaft Bearing Type:

Bearing

Product Name:

Potionmeters, variable resistors

Special Features:

Power: 1w; actuator dia: 6.34mm; actuator length: 22.23mm; resistance in ohms: 1.00 k; termination style: solder turret; resistive material: conductive plastic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A002a0
