Terminal Quantity:

8

Terminal Type:

Solder stud

Product Name:

Chip resistor array series 74x

Special Features:

Low cost; thick film technology; high density packaging; leadless surface mount construction; tape and reel packaging; solder coated nickel barrier pads; isolated and bussed circuits; concave and convex terminations; rohs compliant; 4 resistors and 8 terminations; standard temperature coefficient is 200ppm degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A001a0
