End Application:

Oper temp: -40 degrees to +125 degrees c; switch characteristics: contact resistance: 2ohms max; dielectric strength: 350 vdc, detent torque: 0.5 oz-in min, power rating (resistive load): 100ma @16vdc

Product Name:

3310-9mm square sealed panel control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A002a0
