Terminal Quantity:

2

Terminal Type:

Wrap-around

Overall Length:

0.125 inches

Overall Height:

0.113 inches

Overall Width:

0.100 inches

End Application:

Ca70608-00 (19156) , receiver-transmitter

Mounting Configuration:

Surface mount; leadless

Element Material:

Ceramic

Resistance Rating At Specificationified Voltage:

10000000.000

Resistance Temperature Rating:

125.0 degrees celsius

Power Dissipation Rating In Watts:

0.150

Special Features:

continuous working voltage: 18.0 volts; ml series surface mount multilayer varistor

Supplementary Features:

7 inch diameter reel, plastic carrier tape; 1000 pieces

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-d
