Inclosure Method:

Encapsulated

Terminal Type:

Solder stud

Terminal Length:

1.250 inches

Body Diameter:

0.070 inches

Body Length:

0.187 inches

Terminal Width:

0.016 inches

Special Features:

Low noise (-40db); epoxy coating provides moisture protection

Style Designator:

Axial terminal each end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A001a0
