**Body Length:**

9.9 millimeters

**Body Width:**

7.6 millimeters

**Body Height:**

0.9 millimeters

**Terminal Width:**

7.6 millimeters

**Product Name:**

Dual-in-line resistor networks

**Special Features:**

Isolated, bussed or ttl-terminator circuits; molded case construction; thick film resistive elements; reflow solderable; compatible with automatic surface mounting equipment; reduces total assembly costs; lead-free version is rohs compliant

**Style Designator:**

Terminals two edges

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A001a0
