Film Fixed Resistor Network - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5905-01-582-8553

Body Length:
9.9 millimeters
Body Width:
7.6 millimeters
Body Height:
0.9 millimeters
Terminal Width:
7.6 millimeters
Product Name:
Dual-in-line resistor networks
Special Features:
Isolated, bussed or ttl-terminator circuits; molded case construction; thick film resistive elements; reflow solderable; compatible with
automatic surface mounting equipment; reduces total assembly costs; lead-free version is rohs compliant
Style Designator:
Terminals two edges
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A001a0
