Inclosure Method:

Encased

Terminal Type:

One surface

End Application:

Air force intergrated command and control system

Product Name:

Resistor, chip, thin film

Specification Data:

12436-12436-6012283 manufacturers specification control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A001a0
