Terminal Type:

Eyelet

Reliability Indicator:

Established

Reliability Failure Rate Level In Percent:

3.000

Terminal Length:

0.625 inches

Body Diameter:

1.125 inches

Body Length:

10.500 inches

Terminal Width:

0.375 inches

Product Name:

Wirewound resistor, industrial power, edgewound

Special Features:

Terminal finish: nickel coated steel

Style Designator:

Radial terminal each end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A001a0
