| Body Length:                     |
|----------------------------------|
| 3.6 millimeters                  |
| Body Height:                     |
| 1.4 millimeters                  |
| Product Name:                    |
| Metal film, cylindrical resistor |
| Shelf Life:                      |
| N/a                              |
| Unit Of Measure:                 |
|                                  |
| Demilitarization:                |
| No                               |
| Fiig:                            |
