End Application:

Special aircraft and engine tool and support equipment/parts

Product Name:

Navy: rtd; cage: nondisplay temperature sensor

Special Features:

Connection: 1/4 inch male npt; media temperature range: m50/p150 degrees c; probe length: 50mm/1.96 inch; supply voltage: 10-35 vdc; output: 4-20 ma analog; supply current: less than 23 ma (no load); housing material: 316 stainless steel; response time: less than 3 seconds; operating temperature: m40/p85 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A086a0
