Reliability Indicator:

Not established

Terminal Length:

36.0 inches

Body Length:

1.25 inches

Body Width:

0.090 inches

Body Height:

1.00 inches

Maximum Operating Temp:

428.0 degrees fahrenheit

Thermal Time Constant In Seconds:

0.2

End Application:

Discoil thermal-ribbons

Inclosure Type:

Encased

Zero Power Resistance:

100.0 ohms

Zero Power Resistance Tolerance In Percent At Reference Temp:

-0.11 to 0.11

Product Name:

Thermal ribbons

Special Features:

Material: silicone rubber with polyimide backing; high temperature rating, platinum pd accuracy available

Precious Material:

Platinum

Style Designator:

Wafer

Terminal Type And Quantity:

3 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A086a0
