**Reliability Indicator:**

Not established

**Terminal Length:**

36.0 inches

**Body Length:**

1.25 inches

**Body Width:**

0.090 inches

**Body Height:**

1.00 inches

**Maximum Operating Temp:**

428.0 degrees fahrenheit

**Thermal Time Constant In Seconds:**

0.2

**End Application:**

Discoil thermal-ribbons

**Inclosure Type:**

Encased

**Zero Power Resistance:**

100.0 ohms

**Zero Power Resistance Tolerance In Percent At Reference Temp:**

-0.11 to 0.11

**Product Name:**

Thermal ribbons

**Special Features:**

Material: silicone rubber with polyimide backing; high temperature rating, platinum pd accuracy available

**Precious Material:**

Platinum

**Style Designator:**

Wafer

**Terminal Type And Quantity:**

3 wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A086a0
