**Mounting Facility Type And Quantity:**

2 unthreaded hole single mounting facility

**Special Features:**

Gcapacitance shall be 0.19 uf min. Apply 400 volts dc across terminal leads of capacitor at a rate not to exceed 500 v per second. Epoxy resin used to seal capacitor in retainer via potting procedure.

**Style Designator:**

Cylindrical w/flared end

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A062a0
