Reliability Indicator:

Not established

Body Length:

3.750 inches

Body Width:

2.250 inches

Terminal Height From Body:

1.750 inches

Schematic Diagram Designator:

No common or grounded electrode (s)

Capacitance Value Per Section:

4.000 microfarads single section

Tolerance Range Per Section:

-10.00 to 20.00 percent single section

Terminal Type And Quantity:

2 solder stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A010b0
