Reliability Indicator:

Not established

Body Length:

1.281 inches

Body Height:

2.750 inches

Schematic Diagram Designator:

No common or grounded electrode (s)

Capacitance Value Per Section:

0.100 microfarads single section

Nonderated Operating Temp:

Unable to decode and 85.0 degrees celsius

Tolerance Range Per Section:

-15.00 to 15.00 percent single section

Case Material:

Metal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A010b0
