**Reliability Indicator:**

Not established

**Body Length:**

2.160 inches

**Body Width:**

1.310 inches

**Schematic Diagram Designator:**

No common or grounded electrode (s)

**Capacitance Value Per Section:**

1.000 microfarads single section

**Nonderated Operating Temp:**

Unable to decode and 85.0 degrees celsius

**Tolerance Range Per Section:**

-10.00 to 10.00 percent single section

**Power Factor At Reference Temperature In Percent:**

0.6000

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A010b0
