**Anode Type:**

Solid

**Electrical Polarization:**

Nonpolarized

**Features Provided:**

Hermetically sealed case

**Capacitance Value Per Section:**

2.800 microfarads single section

**Dc Leakage At Maximum Operating Temp:**

3.0 microamperes

**Tolerance Range Per Section:**

-10.00 to 10.00 microfarads single section

**Case Material:**

Metal

**Capacitive Electrode Material:**

Tantalum

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A010b0
