Anode Type:

Solid

Electrical Polarization:

Nonpolarized

Features Provided:

Hermetically sealed case

Capacitance Value Per Section:

2.800 microfarads single section

Dc Leakage At Maximum Operating Temp:

3.0 microamperes

Tolerance Range Per Section:

-10.00 to 10.00 microfarads single section

Case Material:

Metal

Capacitive Electrode Material:

Tantalum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A010b0
