Mounting Method:
Terminal
Capacitance Value:
54.0 picofarads
Capacitance Tolerance In Percent:
-1.0 to 1.0
Component Quantity:
2
Component Controlling Agency:
Army electronic command
Component Name:
Fixed glass capacitor
Component Relationship:
Matched to each other
Working Voltage Rating:
500.0 volts
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T172-f
