Mounting Method:

Holes

Capacitance Value:

1.0 microfarads

Capacitance Tolerance In Percent:

-10.0/+10.0

Component Quantity:

7

Component Controlling Agency:

Naval ordnance systems command

Component Name:

Fixed plastic dielectric capacitor

Component Identifying Number:

2834165 drawing no.

Component Relationship:

Not matched

Working Voltage Rating:

300.0 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
