Body Style:

Chip type

Reliability Indicator:

Not established

Terminal Length:

0.435 inches

Body Diameter:

0.435 inches

Body Length:

0.019 inches

Schematic Diagram Designator:

No common or grounded electrode (s)

Case Material:

Ceramic or metal

Terminal Surface Treatment:

Solder

Terminal Type And Quantity:

2 bonding pad

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A010b0
