Terminal Quantity:

4

Mounting Method:

Threaded holes

Capacitance Value:

9400.0 microfarads

Capacitance Tolerance In Percent:

-10.0/+75.0

Component Quantity:

2

Component Controlling Agency:

Data products

Component Name:

Fixed, electrolytic capacitor

Component Identifying Number:

102446-1 part no.

Component Relationship:

Connected matched pair

Working Voltage Rating:

75.0 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
