Terminal Quantity:
4
Mounting Method:
Threaded holes
Capacitance Value:
9400.0 microfarads
Capacitance Tolerance In Percent:
-10.0/+75.0
Component Quantity:
2
Component Controlling Agency:
Data products
Component Name:
Fixed, electrolytic capacitor
Component Identifying Number:
102446-1 part no.
Component Relationship:
Connected matched pair
Working Voltage Rating:
75.0 volts
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T172-f
