End Application:

F16

General Description:

Metal case; 2.313 in lg., 0.670 in dia.; 0.438 lg. Thread 7/16-20unf-2a; terminal (2) - 0.250 lg., tab with hole positioned parallel to diameter at the end of each lead; current rating 20 amps; capacitance 0.47 mfd porm 20 pc. Tolerance; voltage rating 100 vdc; operating temp. -55 to 125 deg. C, dc resistance 0.01 ohms max.; dielectric test 200 vdc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
