Terminal Quantity:

9

Terminal Type:

Solder stud

Mounting Method:

Hinge

Capacitance Value:

130.0 microfarads

Component Quantity:

23

Component Controlling Agency:

Boeing co

Component Name:

Capacitor

Component Identifying Number:

675-14255-1 drawing no.

Component Relationship:

Not matched

Working Voltage Rating:

75.0 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
