Terminal Quantity:

6

Terminal Type:

Pin

Mounting Method:

Plug-in

Capacitance Value:

1.0 microfarads

Capacitance Tolerance In Percent:

-10.0/+10.0

Component Quantity:

3

Component Controlling Agency:

Union carbide co rp electronics division

Component Name:

Fixed electrolytic capacitor

Component Identifying Number:

T322b105k035as part no.

Component Relationship:

Connected matched pair

Working Voltage Rating:

35.0 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T172-f
