Terminal Quantity:

8

Terminal Type:

Wire lead

Mounting Method:

Connector plug

Capacitance Value:

1.0 microfarads

End Application:

Alcm

Component Quantity:

4

Component Controlling Agency:

Arco/ldp, a division of loral corporation

Component Name:

Capacitor

Component Identifying Number:

Dm-10-271j part no. And dm-15-471j part no. And -39014/02-1419 part no.

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
